RENEWAL: "Nature often holds up a mirror so we can more clearly see the ongoing processes of growth, renewal, and transformation in our lives."

Greetings, Dear Ones:

Reverend Wyldflower

Reverend Gail and I returned from our Leadership conference feeling renewed and invigorated! The changes that are coming because of the Integration between the two Centers for Spiritual

Living are forward thinking and exciting. How to move into a sustainable and thriving future in the midst of so much change is in everyone's consciousness.

Our Centers are looking at how we can shift from an outmoded Pastor/flock church model to a member-driven movement using the inspiration, support and fellowship of Spiritual Community to transform our lives, making the world a better place for us all.

I encourage everyone who is truly interested in how to build a spiritual community to join in the "Living in Spiritual Community" interactive workshops we are offering free of charge the first two Sundays in April following Celebration. The information you will learn can be used for any community-based organization that intends to move beyond ego driven "doingness". Based on the work of Gary Simmons, author of the I of the Storm, this workshop (see page 2) begins by examining "Who have I come here to be?" and how to use spiritual community to manifest that.

Historic Integration Conference

The voting results between the International Center for Spiritual Living (ICSL) and the United Centers for Spiritual Living (UCSL) about the integration acceptance.

The "Potters" ritual with the resulting vessel made from all of the different clays; the vessel is being filled with oil by members of the Wisdom Council who are representing each side.

The oil was then poured into the glass dishes and taken out into the audience by about 20 Practitioners who then anointed each of us on the forehead as we acknowledged our Oneness.

Renewal of Life and Love

As we greet this new month of April, we may be
Surrounded with images of Springtime, seeing myriad forms
Of flowers raising their beautiful color filled heads
Tentatively above the cool ground.

Sharing their subtle fragrances long hidden in the Earth,
We are invited to receive these generous gifts of Love.
Now that we are living in this Savings of Day-Light period,
We may be reminded that truly we are always engaged
In divine time, flowing along effortlessly and gracefully.

This is an opportunity for us to experience renewal
Of our precious knowing and trusting who we are in
Essence and Completeness. Our hearts may sing in Gratitude.
Blessings upon us, Blessings upon us All.

Learn How to Build Spiritual Community

Useful for any community-based organization
that intends to move beyond ego driven "doingness".

*Based on the work of Gary Simmons, author of
"I of the Storm",*

1. Who have I come here to be?
2. How do we use spiritual community to manifest that?
3. How has Science of Mind/our Spiritual Center changed your life?
4. How are we making the world a better place?
5. How do we change lives?
6. Why do you give to our Center?
7. Why are we worth supporting?

Answering these questions will focus what we are doing
together as a spiritual community.

We want to know your responses.

"the Quantum **Activist**"

Dr. Amit Goswami, Ph.D,

Be prepared to take a discontinuous leap.

There is a revolution going on in science. A genuine paradigm shift. While mainstream science remains materialist, a substantial number of scientists are supporting and developing a paradigm based on the primacy of consciousness.

◇ *The Quantum Activist tells the story of a man who challenges us to rethink our very notions of existence and reality, with a force and scope not felt since Einstein.*

◇ *This film bridges the gap between God and Science. The work of Goswami, with stunning precision and without straying from the rigors of quantum mechanics, reveals the overarching unity inherent in the worlds major religions and mystical traditions.*

◇ *With a poignant relevance to the problems of our day, this*

film follows Dr. Goswami as he demonstrates how our mistaken views of reality have led to our current environmental, social, economic and spiritual crisis; as well as the means of correcting these errors.

◇ *At stake is nothing less than our survival upon the planet. The Quantum Activist is a film for our time. It is a film for all time. It is a film whose very subject transcends time.*

"What are you doing to participate in the creation of the reality we all share?"

(Wyldflower, continued from Page 1

Our Global vision for our Centers is to envision all people and all life as expressions of God, awakening each other to our spiritual magnificence and creating a world that works for everyone and all of creation. We see ourselves as a spiritual movement committed to living consciously as individualized expressions of the One Heart and Mind. As each one of us remembers the spiritual truth of our being, we bring into experience the Kingdom of Heaven on earth.

A new era is starting to show up in form. When we focus on what we want to manifest and hold steady to the vision of being what we came down here to be, we become the change we have been waiting for. The time for waiting is over- join with us in creating a Center filled with people who live their hearts desire!

A speaker at the conference said:

"Don't ask what the world needs, ask what brings you alive- that is what the world needs."

Namaste` ~ Reverend Tanya Wyldflower
